Research activity -2024

Department of Prosthodontics, Crown And Bridge

1. Interdisciplinary approach for treating denture irritation tissue hyperplasia -A clinical case report Journal of chemical health risks Journal of chemical health risks JCHR (2024) 12(2), 20-25
2. Color Stability of lithium disilicate and monolithic zirconia in various a staining liquids: An invitro study Journal of chemical health risks JCHR (2024) 14(1) 2389-2395
3. Occlusal splints and its management in temporomandibular disorders:A review International Dental Journal of Students Research 2024:12(1):7-12
4. An innovative dental technique to mangle wide & flared root canals using an anato mical intra-radicular retainer International Dental Journal of Students Research 2024 ;12 (1):50-54
5. Minimally Invasive ,Non surgical anterior rehabilitation of congenitallt missing maxillary laterals : A case report Journal of chemical health risks JCHR (2024) 14(2),232-236
6. Facial scanner : Enhancing the digital era with precision International journal of all research education and scientific methods 2024 12 (12)
7. Effect of different scan patterns on aquracy of angulated and straight implant :An invitro study IP Annuals of prosthodontic and restorative Dentistry 2024 :10(4):318-323
8. Inclination of retromolar pad and its relationship to occlusal plane in edentulous subjects :An observational study ; The journal of Dental Panacea 2024:6(4):197-201
9. Comparative evaluation of sability and osseointegration of dental implant placed with and without platelet rich fibrin (PRF):A Systematic review IP International journal of periodontology and implantology 2024:9(3);136-141
10. Enhancing structural flexibility & Longevity : The role of Non-rigid connectors in pier – abutment design:A case report International journal of all research education and scientific methods ISSN:2455-6211,Volume 12 issue 9 2024
11. A technique Redefined for the prosthodontic rehabilitation of completely Edentulous OSMF patient : A Case report International journal of all research education and scientific methods ISSN:2455-6211,Volume 12 issue 8 , august 2024
12. Fabrication of a flexible feeding plate prosthesis in a baby with pierre robin syndrome:A Case report ,clinical dentistry ,Mumbai September 2024
13. Pink aesthetics :a milestone in enhancing smile : a review :The journal of prosthetic rehabilitation vol 6:issue 1:Jan– Dec 2024

1	A comparative evaluation of accuracy of dental cast by using two 3D printing techniques, three different layer thickness and two resins-An in vitro study.	Dr. Sonali Khedkar	Dr. S.A. Khalikar
2	A comparative evaluation of clinical and radiographic outcome of friction fit, cement and screw retained crowns on Internal hex and Morse taper implant-abutment interfaces. – An in -vivo study.	Dr. Eva Jain	Dr. S.A. Khalikar

3	A comparative evaluation of hard and soft occlusal splints on masseter and temporalis muscle thickness and length using ultrasonography and activity using electromyography in patients with myofascial pain & dysfunction syndrome: An in vivo study.	Dr. Rasika Banside	Dr. Kishor Mahale
4	A comparative evaluation of shoulder and chamfer margins for milled and 3D printed crowns by Triple scan technique- an in vivo study.	Dr. Mayuri Shinde	Dr. Ulhas Tandale
5	A comparative evaluation of accuracy and dimensional stability of two interocclusal record materials using conventional interocclusal registration technique an extraoral scanner and an intraoral scanner - an in vivo study.	Dr. Sharayu Bangar	Dr. Kishor Mahale
5	A comparative evaluation of the impact of two surface treatments - hydroxyapatite treated and sandblasted acid etched implants placed using two surgical techniques - pressed fit and undersized technique on the implant stability in the posterior mandibular region - An in vivo study.	Dr. Payal Rewale	Dr. Sonali Mahajan

Awards

"52nd National IPS conference held at Vijayawada Date- 21 - 24/11/2024"

has been a blast with exciting

🏆 Dr. Smita Khalikar participated in paper presentation

🏆 Student Presentation 3rd years participated

Session Best paper presentation first prize - Dr. Gopika Gopan 3 yr pg & Dr. Pranali Nirgulkar

🏆 Poster Competition 2nd years participated Session Best -

Dr. Payal Rewale &

Dr. Eva Jain

🏆 Mannequin challenge reel competition

Runner up - Dr. Ifrah Khan 1st year PG

SN	Details of Webinar/Workshop/CME/Activities Performed
1.	Dept. of periodontics and implantology in association with INDIAN DENTAL ASSOCIATION (IDA) Chh. Sambhajinagar branch conducted CME on hands on Crown Lengthening Procedure.
2.	No Bleeding Gums drive conducted by ISP in association with Dept. of Periodontics and implantology, around 300 patients were screened for bleeding gums during interval of 5 th February to 10 th March 2024.
3.	Oral Health Day (OHD) was celebrated in the Dept of Periodontics and Implantology on 1 st August, Rangoli drawing Reel making competitions were held.
Details Of Research Topics	
1.	Evaluation of effect of amalgam and composite interproximal restoration on periodontal health- a clinical, radiographical and immunochemical study.
2.	a comparative evaluation of hard and soft tissue changes around immediate and delayed dental implant placement- a Clinicoradiographic study.
3.	A clinical and radiographic evaluation of 1.2% simvastatin gel with demineralized Freeze dried bone allograft and chorion membrane versus demineralized freeze dried bone allograft and chorion membrane in treatment of mandibular grade ii furcation defects- a randomized controlled clinical trial
4.	Evaluation of Implant Stability, Crestal bone levels and Peri Implant soft tissue levels around early loaded implant in restoring mandibular missing tooth.
5.	Comparative study to evaluate the effect of Titanium prepared Platelet - rich fibrin on Implant Stability: A clinical Trial
6.	The efficacy of Low - level Laser Therapy combined with Single flap Periodontal Surgery in the Management of of Intra body defects : A Randomized Controlled Trial.
7.	A Comparative Evaluation of Implant Stability, Crestal bone levels around Implant placed by Osseodensification drill and Conventional Technique in Low Bone Density : Clinicoradiographic Study.

8. A Comparative Evaluation of Efficacy of Systemically and Locally delivered Muskmallow (*Abelmoschus moschatus*) seed extract as an adjunct to scaling and root planning in Generalized Moderate to Severe Chronic Periodontitis patients : A Randomized Double Blinded Controlled Clinical Trial.
9. Influence of Apicocoronally positioning and Supracrestal Tissue height of Single piece and two piece implants on marginal bone loss : Radiographic Randomized Controlled Trial.
10. Effect of Low level Laser treated PRF in Periodontal Flap Surgical Procedure : A Randomized Controlled Trial
11. Comparative Evaluation of 1% Satranidazole gel and 1% Metronidazole gel as a Local Drug delivery agent in Chronic Periodontitis Patients : A Randomized Controlled Trial.
12. Comparative Evaluation of Concentrated Growth Factor Membrane and Platelet Rich Fibrin bandage after Periodontal Flap Surgery.
13. Effect of Methylene Blue and Toluidine Blue O Mediated Photodynamic Therapy as an Adjunct to Scaling in treatment of Periodontitis: A Split Mouth Randomized Controlled Clinical Trial.
14. Comparative Evaluation of Clinical Outcomes following Guided Biofilm therapy and Conventional SRP in Periodontitis Patients : A Split – Mouth Clinical Study
15. Comparative assessment of clinical outcomes following mandibular labial Ventriculoplasty alone and in combination with bovine collagen sheets to cover the exposed periosteum : A Clinical Study
16. Comparative Evaluation Of Vit. C and Vit. E on Gingival Inflammation.
17. Knowledge Attitude and Perception regarding AI in dentistry : questionnaire study.
18. Effect of Methylene Blue and Toluidine Blue O Mediated Photodynamic Therapy as an adjunct to scaling in treatment of Periodontitis : A Split Mouth Randomized Controlled Clinical Trial
19. Antibiotic Prescription Practices of General Dentists : A Questionnaire Study.
20. Knowledge And Attitude about relationship of Periodontal Health and Systemic Health among college students : A Questionnaire based study.
21. Effectiveness of Diode Laser in Evaluation Of Periodontal Pocket Healing – A Split Mouth Clinical Trial.
